Turnitin permission form

May 2014

Dear Parents,

Lake Tuggeranong College has invested in the software program, Turnitin. We aim to have all students accessing this software. It works like this:

Students submit their written assessment through a secure website. Teachers are then able to use the data that Turnitin provides to evaluate student writing and provide rich feedback to students. This feedback includes comment on research skills, appropriate use of sources, and comprehension and effective use of information. Further information about Turnitin can be found at: http://turnitin.com/.

Students need to accept Turnitin’s User Agreement to use the program and register an account. The agreement covers the scope of services provided, account security, appropriate use of the site, and privacy. A copy of the agreement can be read at http://www.ltc.act.edu.au/curriculum/library.

Turnitin is available to all Lake Tuggeranong College students and a small group of teachers are beginning implementation of Turnitin this term.

Please complete the form below and return it to your student’s class teacher.
